Fendt 942 Vario receives award in Slovakia

At the Agrosalón international agricultural trade show in Slovakia, the Fendt 942 Vario received awards for two technologies.

The Fendt 942 Vario was honored in an award ceremony. The jury cited the following as decisive: "The Fendt low-speed concept Fendt iD and the unique technical solution of the Fendt self-cleaning air filter for regions with heavy dust generation."

Robert Furda, Director Sales Machines, from our sales partner Hriadel in Slovakia accepted the award.
