

Fendt® Shines at The Great American Farmers Market 2025 with Golden Tractor in U.S. Capitol

Golden Fendt tractor celebrates American farmers, manufacturing, and is visited by crowds and dignitaries in Washington, DC.

AGCO's golden Fendt® 1167 Vario® MT tractor stood proudly at the U.S. Capitol during the Great American Farmers Market, celebrating the resilience and innovation of American agriculture, as well as the Farmer-First benefits provided by Fendt's Gold Star Warranty. Built in Jackson, Minnesota, the striking machine reflects AGCO's commitment to U.S. farmers and its support of the event. The tractor next travels to the Farm Progress Show to continue honoring growers nationwide.

DULUTH, Ga. | Aug. 11, 2025 | AGCO (NYSE: AGCO), a global leader in the design, manufacture and distribution of agricultural machinery and precision ag technology, showcased a one-of-a-kind golden Fendt® tractor at the U.S. Capitol from August 3 – 8, commemorating the Great American Farmers Market, a weeklong celebration of food, family and farming. This striking machine features a full gold exterior, a patriotic window wrap and a Farmer-First message: "We Support American Farmers."

Built in Jackson, Minnesota, the shiny Fendt 1167 Vario® MT track tractor symbolizes Fendt's commitment to U.S. growers, exemplified by the brand's Gold Star Customer Care program. Every Fendt product includes a three-year full warranty with maintenance and inspections.

"Fendt is proud to stand with American farmers," said Mike Long, Vice President, Fendt North America. "This golden tractor is a tribute to their resilience, innovation and the vital role they play in helping feed the world."

U.S. Secretary of Agriculture Brooke Rollins was the first to sign the tractor earlier this year at Commodity Classic in Denver. Several dignitaries added their signatures last week in Washington D.C.

Following its Capitol appearance, the golden tractor will return to the Fendt Lodge in Jackson, Minnesota, the brand's official North American home, before heading to the Farm Progress Show in Illinois later this month to continue its celebration of American farmers.
