

The Fendt booth at Commodity Classic 2022 in New Orleans, Louisiana, will be teeming with award-winning products, including the contour-hugging Fendt Momentum planter, the adjustable-clearance Fendt Rogator applicator, the massive Fendt IDEAL 10T combine, and an array of tractors with the innovative FendtONE driver's workstation.

## AGCO's Fendt® to Display Innovative Solutions at 2022 Commodity Classic

Exhibit will include many award-winning products, including the Fendt Rogator® 900 Series applicator, the Fendt Momentum® planter, the Fendt IDEAL® 10T combine, and FendtONE™ equipped tractors. March 03, 2022

**DULUTH, GA** | [AGCO Corporation](#) (NYSE: AGCO), a global leader in the design, manufacture and distribution of agricultural machinery and precision ag technology, will display an array of innovative and farmer-focused Fendt® equipment at the 2022 Commodity Classic in New Orleans, Louisiana, on March 10-12. Included will be many of the brand's revolutionary products, including the Rogator® 900 Series applicator, the IDEAL® 10T combine, the Momentum® planter, and a range of tractors to suit farming operations of all sizes.

After a digital-only event in 2021, most of Fendt's exhibit will be new to Commodity Classic attendees and many have been recognized for engineering excellence. Visitors will enjoy hands-on experiences with truly innovative equipment and opportunities to learn about Fendt's award-winning solutions, which will fill the booth from one end to the other:

The unique [Fendt Rogator 900 Series Applicator](#) offers year-round nutrient and clearance versatility for liquid and dry applications. Application height is adjusted within seconds at the push of a button and conversion between liquid and dry formats can be accomplished in under two hours. Pre-plant, postemergence, mid-season, late-season and post-harvest applications may all be accomplished with this one machine for tremendous ROI and usefulness. *An AE50 award-winner!*

The eye-catching [Fendt Momentum Planter](#) is a truly revolutionary high-capacity, high-speed planter that reduces planter soil compaction while greatly improving seed placement accuracy on contours and in challenging planting conditions. Momentum also allows growers to cover more acres in less time with 130-bushel seed capacity and high-capacity liquid and dry fertilizer options directly from the factory. *An AE50 award-winner!*

The impressive [Fendt IDEAL 10T Combine](#) provides the highest horsepower and largest separation capacity among North American combines on an agile 11.5-foot-wide chassis. The combine will feature the public debut of the 9350 DynaFlex® header, the brand's first 50-foot draper header, and [IDEALdrive™](#), the award-winning joystick driving system that provides

unobstructed views of the header and reduces operator fatigue. *Fendt's IDEALdrive is an AE50 award-winner!*

The immersive **FendtONE™ Mobile Experience Center** is an interactive digital exhibit that educates farmers on the unique capabilities of Fendt's latest technology and equipment. The highlight of the experience is a complete and fully-functional FendtONE cab that provides visitors a unique (and fun) hands-on user experience just like those found in Fendt's award-winning Vario® series tractors. *The Fendt 700 Gen6 tractor with FendtONE is an AE50 award winner!*

To learn more about Fendt's innovative line of farming solutions, visit [Fendt.com](http://Fendt.com) or stop by Fendt's booth (#3504) at Commodity Classic in New Orleans, Louisiana, on March 10-12.
